

# RAILCAR MAINTENANCE EQUIPMENT SERVICES

**Whiting**

CRANE + RAILWAY SERVICES

**WHITING SERVICES OFFERS RAILCAR MAINTENANCE EQUIPMENT SERVICES THAT WILL HELP KEEP YOUR EQUIPMENT IN A STATE OF GOOD REPAIR.**

**WE OFFER ROUND-THE-CLOCK NATIONAL COVERAGE, AND HAVE THE EXPERIENCE AND MATERIALS NECESSARY TO INSPECT AND REPAIR EQUIPMENT TO MINIMIZE DOWNTIME.**

## **INSPECTIONS**

Technicians will perform a complete operational and visual inspection of your equipment which includes minor maintenance and repairs. Upon completion, customers receive a detailed inspection report.

## **EXPERT REPAIRS**

With round-the-clock national coverage and guaranteed response times, Whiting stands prepared to repair your railcar maintenance equipment in an emergency or on your schedule.

## **TRAINING**

Whiting Services offers comprehensive operator and maintenance training programs for your railcar lifting equipment. Our expert trainers travel to your facility to teach best practices for safe and proper use of your equipment.

## **OEM REPLACEMENT PARTS**

Whiting's state-of-the-art manufacturing capabilities, in-house re-engineering, warehouse and distribution facilities, and critical-mass purchasing power gives us the ability to provide you with a full range of OEM parts for your Whiting equipment.

# PORTABLE ELECTRIC JACK REPAIR + REBUILD PROGRAMS

Scheduled at your convenience, Whiting Services will inspect, service, and repair your Portable Electric Jacks on your site with a comprehensive one year parts and labor warranty.

A more vigorous rebuild program where the jacks are completely disassembled for a thorough inspection of all components can be performed at one of our service branch locations. A detailed condition report with photos will itemize all deficiencies, and will include repair recommendations along with a quote for all repairs to your Portable Electric Jacks.

The Half-Life Rebuild Program completely refurbishes your jacks for a fraction of the price of new. All parts and components are replaced with the exception of the main frame and lifting bracket providing you with a “like-new” jack that doubles the life of the jack.

## DROP TABLE MODIFICATION + UPGRADES

Whiting Services will rebuild Drop Tables on your site at approximately 80% of the cost of a new Drop Table with a one year warranty on all parts and labor. Once parts are received, highly trained and qualified technicians will perform the modifications and upgrades either on site or will ship the Drop Table to the nearest service branch.

Electrical upgrades can include variable frequency drives and a programmable logic controller for smoother operation. Other upgrades can include new cord reels, limit switches and/ or photoelectric switches for positioning and remote control radios with back-up pendants. Whiting Services can also add or replace the automatic jack screw lubrication system.
